

CERAMIC BIBLIOGRAPHY 2010-2014

This short bibliography is provided as a guide to some of the more recent ceramic studies that provided important information on Egyptian interconnections. It does not aim to be exhaustive, but to highlight some of the trends in the field and where advances have been made. The compilers hope this bibliography will be a starting place for those interested in recent work on pottery and Egyptian contact with the Near East.

Mary F. Ownby
Bettina Badar
